**Demonstration Permits** are issued to Dealers for the **LIMITED** purposes of **Testing**, **Demonstrating** or **Preparing** a Vehicle for Sale or Lease. Any vehicle operated on a public roadway is required to have a Demo Tag.

- Dealers should ensure that each vehicle in their inventory is issued its own **Demonstration Permit** and it is “**Affixed**” to the **specific vehicle** for which the permit is issued.
- A **Demonstration Permit**, after being affixed to a specific vehicle, shall be valid for as long as the vehicle is held in the Dealer’s inventory.
- Proper use of this permit is deemed compliance with state statute that requires every owner to title and register their vehicle.

**Demonstration Permits are specific to each vehicle. They may not be used on work or service vehicles that are owned, used or held in inventory by a Dealer.**

A Dealer who uses **Demonstration Permits** is required to maintain a list showing the date on which the Dealer assigned the permit to a vehicle and the name and a description of the vehicle, including its make, model, model year and vehicle identification number.

- A Dealer shall maintain the list for three years from the end of the year in which the Dealer issued the permit and must make it available to TRD-MVD and to law enforcement officers during reasonable business hours.
- When a vehicle is sold, the dealer **shall** keep **Demonstration Permits** with other records of the sale. A **Demonstration Permit** shall name the Dealer to whom the **Demonstration Permit** is issued and display a unique identification number assigned by the department.
